Rolling Shape Sorter

Item number 76007

A cylinder-style shape sorter that rolls effortlessly along the floor or a table top. Six rattling shapes, three at each end, post through matching holes, and easy-opening lids at each end give quick access to empty it. The child explores each shape, learns where it fits by shape and colour, then rolls the sorter away and crawls or walks to fetch it.

KEY FEATURES

-  **Six rattling shapes**
Three shapes at each end, each with its own sound.
-  **Easy opening lids**
Lids at both ends open quickly to empty the sorter.
-  **Effortless rolling**
Rolls smoothly across floor or table top.
-  **Colour matching**
Shapes and holes match by colour as well as by shape.

LEARNING & DEVELOPMENT

-  **Shape recognition**
Each shape fits only its own hole; the wrong one will not go in.
-  **Colour recognition**
Colour matching gives a second clue to the right hole.
-  **Fine motor skills**
Turning, posting and removing shapes builds manipulation skills.
-  **Movement & gross motor**
Rolling the sorter away encourages the child to move and retrieve it.

PRODUCT INFORMATION

Specifications from the TOLO product database

Age	12 months +
Item number	76007
UPC / EAN	019287760071
Contents	Rolling sorter with 2 lids, 6 rattling shapes

Packaging dimensions	16.5 × 16.5 × 16.5 cm
Product weight	0.48 kg
Master carton	12 pcs · 51.5 × 35 × 35.5 cm · 0.064 m ³ · 8.2 kg gross

Sits alongside the Rolling Ball Shape Sorter (76004) and Activity Shape Box (76010) in the Classic Shape Sorters category.
