Pop Up Dinosaur

Item number 76009

Four baby dinosaurs sit pushed down inside their eggs. Each one pops up by a different action, so the child twists, presses, slides or turns a shape to make a dinosaur appear, then pushes it down to start again. Every egg, dinosaur and shape has its own colour, giving adults a ready vocabulary of actions and colours to name while the child plays.

KEY FEATURES

-  **Four pop-up actions**
Each dinosaur pops up with a different movement.
-  **Push down to reset**
Dinosaurs push back into their eggs to play again.
-  **Colour matched**
Eggs, dinosaurs and shapes each carry their own colour.
-  **Shape matching**
Shaped controls give a first link between shape and action.

LEARNING & DEVELOPMENT

-  **Cause and effect**
Each action makes a dinosaur pop up, rewarding the child straight away.
-  **Fine motor skills**
Twisting, pressing and sliding the controls train different hand movements.
-  **Colour recognition**
Adults ask for the dinosaur in the yellow egg or the pink button.
-  **Language development**
Action words like twist and press are paired with what the child does.
