Gripper Rattle

Item number 76038

A colourful rattle with two easy-grip handles. Babies from three months hold the handles and shake it, then watch the sherbet-coloured beads cascade from one end to the other. Turn it the other way round and the beads fall again. The simple handles suit the earliest grasping, and the sight and sound of the falling beads reward independent exploration.

KEY FEATURES

-  **Cascading beads**
Beads fall from one end of the rattle to the other.
-  **Easy-grip handles**
Handles shaped for small hands to grip and grasp.
-  **Sherbet colours**
Colourful beads to watch as they move.
-  **Turn to repeat**
Turn the rattle over and the beads fall again.

LEARNING & DEVELOPMENT

-  **Fine motor skills**
Gripping the handles and shaking builds early grasp and arm control.
-  **Cause and effect**
Turning the rattle over makes the beads fall and rattle again.
-  **Sensory exploration**
Moving colours and rattling sound give babies something to watch and listen to.
