

FIRST FRIENDS · SAFARI & WILD

First Friends Snake

Item number 76066

The First Friends Snake is a jointed animal figure that bends into a great variety of poses. The child turns the clicking head, curls and straightens the body and can hang the snake from its tail. It is safe for teething and collectable, and its flexible body makes it a distinctive addition to the First Friends animals for pretend play and talk about how snakes move.

KEY FEATURES

-  **Jointed body**
Bends into a great variety of poses, coiled, curled or straight.
-  **Clicking head**
Head turns with a click the child can hear and feel.
-  **Hangs from its tail**
The snake can be hung up by its tail.
-  **Safe for teething**
Made to be mouthed safely by younger children.

LEARNING & DEVELOPMENT

-  **Fine motor skills**
Bending the jointed body and turning the head works fingers and wrists.
-  **Cause and effect**
Turning the head produces a click, linking the child's action to a result.
-  **Imaginative play**
Posing and hanging the snake invites role play with other First Friends animals.
-  **Language development**
Talking about how the snake moves and looks builds descriptive vocabulary.
