Classic Trumpet

Item number **76125**

The Classic Trumpet is a lightweight first instrument for children from twelve months. Held by the easy-grip handle, the child blows into the trumpet to make a toot and presses the buttons to hear three different sounds. Working out how to make each noise, and hearing words like press, blow and hold along the way, makes music-making a first lesson in cause and effect.

KEY FEATURES

- Blow to toot**
Blowing into the trumpet makes a toot.
- Three button sounds**
Press the buttons for three different sounds.
- Easy grip handle**
A handle gives small hands a firm hold.
- Lightweight body**
Light enough for a one-year-old to lift and play.

LEARNING & DEVELOPMENT

- Cause and effect**
Blowing and pressing each produce a different, repeatable sound.
- Sound & rhythm**
Three button sounds plus the toot give a first taste of making music.
- Fine motor skills**
Gripping the handle and pressing buttons strengthens fingers and hands.
- Language development**
Adults introduce words like press, push, hold, blow and trumpet during play.
